February 13, 2016

Dear Divers and Water Sports Enthusiasts

The Bay State Council of Divers and the Massachusetts diving community is greatly concerned about the continuing loss of public parking in coastal communities to allow shore access for diving. Most communities restrict parking access to residents only and this prevents other citizens from using the public beaches and rights of way in these communities.

We believe this issue concerns many other water sports and recreational activities and we are seeking your input and support to remedy this situation. To this end we are hosting a meeting for representatives of interested parties at the Boston Sea Rovers Show at the Doubletree Hotel North Shore in Danvers MA on Sunday March 6, 2016. The meeting will be held in the Essex Room from 2:00-3:00 PM.

We hope that by coordinating our efforts across user groups that we can reverse this situation and get greater access to our shores for all citizens to freely enjoy. Please respond contact the Bay State Council of Divers (<http://www.baystatecouncil.org>) if you have questions.

Sincerely

Angelo Correnti, President  
Bay State Council of Divers
